## Profile

---

- I'm Mohammed Salah Ahmed.
  - I'm a student at Zoser Higher Institute, majoring in Business Administration, and I'm learning web development through the educational platform at the institute as well as self-study.
  - I possess skills in programming languages such as HTML, CSS, JavaScript, and PHP. Additionally, I have experience in designing and developing dynamic and responsive websites, and I'm proficient in working with databases and web applications.
  - During my academic journey, I have participated in various web development projects, which have enhanced my skills and deepened my understanding of the field.
  - Currently, I'm actively seeking employment opportunities in web development, aiming to apply what I've learned and expand my knowledge and skills in a practical work environment.
  - Aside from my academic pursuits and professional aspirations, I enjoy engaging in creative projects and technological challenges. I'm constantly striving to improve myself and advance my career path.

## Employment History

---

### Farm Worker

Various farms • Qalubeya, AL

05/2019 - 03/2022

- Experienced agricultural worker with over 3 years of experience working in teams across multiple farms, possessing strong skills in farming, supervising agricultural lands, and teamwork to achieve production goals

### Waiter

Papa John's • 6, October

04/2022 - 12/2022

- A waiter with one year of experience working in an upscale restaurant, possessing strong customer service, time management, and teamwork skills, in addition to expertise in serving food and beverages professionally

### Factor

Hassan Allam Company • Aldabaa

01/2023 - 11/2023

- A construction worker with one year of experience working with a major construction company, possessing strong teamwork and time management skills, in addition to expertise in executing projects with precision and efficiency

### Front End Developer

Almadrasa • Alqnater

12/2023 - 07/2024

- I started learning front-end development from various sources and websites until I found the School platform, where I purchased courses to learn this field. This experience significantly enhanced my knowledge through the projects I applied and my ability to handle large projects. It also developed my skills, such as research techniques and leveraging artificial intelligence to achieve the best results. Additionally, it improved my personal skills, including soft skills and other related competencies. Currently, I have learned and mastered several languages, such as HTML, CSS, SASS, JavaScript, and React.js. I have applied many projects to master these technologies.
- Here are some of the projects:
  1. [Personal Website](https://mohamedssalah.github.io/Personal-website/)
  2. [Personal Website Cards](https://mohamedssalah.github.io/personal\_wibsite-Cards/)
  3. [VPN Landing Page](https://mohamedssalah.github.io/VPN-Landing-Page/)
